

## TECHNICAL DATA SHEET

**EPAT 2T3700**

The double-sided fabric tape is made from fabric coated with a strong adhesive on both sides. It provides durable and reliable adhesion for various surfaces, ideal for both household and industrial applications.

**PROPERTIES**

Type:	Fabric adhesive tape
Substrate:	PET fabric
Thickness:	0,21 mm
Liner:	paper
Liner color:	yellow
Elongation at break:	20%
Adhesive:	hot melt
Adhesion:	45N/25 mm
Operating temperature:	-20°C to +65°C
Available sizes:	4 mm to 1000 mm
Standard roll length:	50 m

QUICK BONDING

MULTIPLE VARIANTS

LONG-LASTING  
DURABILITY

STRONG BOND

**APPLICATIONS**

The double-sided fabric tape is widely used for installing carpets and rugs, ensuring secure and lasting adhesion to floors in both homes and offices. It is also ideal for fastening textile materials, such as roller blind fabrics or wallpapers, offering a discreet and aesthetic bond without visible fastening elements. In industry, it is used to bond fabric, leather, and other flexible materials, making it versatile and reliable. This tape has high tensile strength, allowing for prolonged use in challenging conditions.

The technical data presented in this sheet is based on the manufacturer's laboratory test results.

## COMPLEMENTARY PRODUCTS

### SELF-ADHESIVE DIE CUTS

Epat offers a wide range of self-adhesive die cuts, accelerating production and workflow with products like self-adhesive euro hangers, colored marking dots, double-sided adhesive circles, felt die cuts, cork die cuts, self-adhesive seals, and adhesive-backed hook-and-loop fasteners.

### CATEGORIES OF DIE CUTS

-  [Self-adhesive euro hangers](#)
-  [Colored marking dots](#)
-  [Double-sided adhesive circles](#)
-  [Die cuts on sheets](#)
-  [Felt die cuts](#)
-  [Cork die cuts](#)
-  [Self-adhesive seals](#)
-  [Hook-and-loop fasteners with adhesive](#)
-  [Custom die cuts](#)

### IMPREGNATED WIPES

Epat manufactures individually packed wipes for enhanced adhesion confidence. **The blue** wipe thoroughly cleans the bonding surface, while a **primer wipe** increases the adhesive bond strength of tapes or die cuts.

### TYPES OF IMPREGNATED WIPES

-  [Custom-branded wipes](#)
-  [Degreasing wipes for pre-bonding preparation](#)
-  [Primer wipes to enhance tape adhesion](#)
-  [Multi-language wipes with instructions in 4 languages](#)
